INDEX TO VOLUME 76

Adams, R. D. *The leeward reefs of St. Vincent, West Indies*, 587

Albee, A. L., and A. E. Bence. *Empirical correction factors for the electron microanalysis of silicates and oxides*, 382

Analysis of strain in deformed rocks: a discussion (William M. Chapple), 491
A reply (B. H. Hobbs and J. L. Talbot), 494

Anderson, A. T. *Oxidation of the LaBlache Lake titaniferous magnetite deposit, Quebec*, 528

Andrews, J. T. *Pattern and cause of variability of postglacial uplift and rate of uplift in Arctic Canada*, 404

Bence, A. E., and A. L. Albee. *Empirical correction factors for the electron microanalysis of silicates and oxides*, 382

Bhattacharji, S. *Mechanics of flow differentiation in ultramafic and mafic sills: a reply*, 599

Blakely, Robert F., and Paul Edwin Potter. *Random processes and lithologic transitions*, 154

Boettcher, A. L., and P. J. Wyllie. *Calcite-aragonite transition measured in the system CaO-CO_2-H_2O*, 314

Boettcher, A. L., and P. J. Wyllie. *Melting of granite with excess water to 30 kilobars pressure*, 235

Boon, John D., III. *Trend surface analysis of sand tracer distributions on a carbonate beach, Bimini, B.W.I.*, 71

Bridgwater, D. *Mechanics of flow differentiation in ultramafic and mafic sills: a discussion*, 596

Calcite-aragonite transition measured in the system CaO-CO_2-H_2O (A. L. Boettcher and P. J. Wyllie), 314

Carlson, Keith J. *The skull morphology and estivation burrows of the Permian lungfish, Gnathorhiza serrata*, 641

Chapple, William M. *The analysis of strain in deformed rocks: a discussion*, 491

Chaudhuri, Sambhudas, and Gunter faure. *Rubidium-strontium age of the Mount Bohemia intrusion in Michigan*, 488

Christie, J. M., and A. G. Sylvester. *The origin of crossed-girdle orientations of optic axes in deformed quartzites*, 571

Classification of paleocurrent models (Richard C. Selley), 99

Clifford, Paul M., and John R. Henderson. *Miogeoclines (Miogeosynclines in space and time): a discussion*, 111

Coastal erosion and transgressive stratigraphy (Donald J. P. Swift), 444

Contact alteration in the north wall of the Cape Neddick Gabbro, Maine (H. H. Woodard), 191

Cook, P. J. *Gosses Bluff cryptoexplosion structure*, 123

Deglaciation and differential postglacial rebound in the Appalachian region of southeastern Quebec (Barrie C. McDonald), 664

Derivation of Pleistocene marine chronology from morphometry of erosion profiles (N. C. Flemming), 280

Dietz, Robert S. *Miogeoclines (miogeosynclines) in space and time: a reply*, 119

Dietz, Robert S., and Walter P. Sproll. *Miogeoclines (miogeosynclines in space and time): a reply*, 113

Dorman, F. H. *Some Australian oxygen isotope temperatures and a theory for a 30-million-year world-temperature cycle*, 297

Elders, Wilfred A. *Mantled feldspars from the granites of Wisconsin*, 37

Elliott, David. *Interpretation of fold geometry from lineation isogonic maps*, 171

Empirical correction factors for the electron microanalysis of silicates and oxides (A. E. Bence and A. L. Albee), 382

Enos, Paul., and R. D. Perkins. *Hurricane Betsy in the Florida-Bahama area—geologic effects and comparison with Hurricane Donna*, 710

Experimental studies of igneous rock series, Central Sierra Nevada Batholith, California (A. J. Piwinskii), 548

Experimental studies of igneous rock series: a zoned pluton in the Wallowa Batholith, Oregon (A. J. Piwinskii and P. J. Wyllie), 205

Faure, Gunter, and Sambhudas Chaudhuri. *Rubidium-strontium age of the Mount Bohemia intrusion in Michigan*, 488

Flemming, N. C. *Derivation of Pleistocene marine chronology from morphometry of erosion profiles*, 280

Fox, William T. *Quantitative paleoecologic analysis of fossil communities in the Richmond Group*, 613

Gellatly, D. C., and G. Hornung. *Metasomatic nepheline-bearing gneisses from Darkainle Somali Republic*, 678

Gilman, Richard A. *Kink bands of non-tectonic origin*, 702

Golik, Abraham. *History of Holocene transgression in the Gulf of Panama*, 497

Gosses Bluff cryptoexplosion structure (P. J. Cook), 123

Hamilton, N., W. H. Owens, and A. I. Rees. *Laboratory experiments on the production of grain orientation in shearing sand*, 465

Handy, R. L., and R. A. Lohnes. *Slope angles in friable loess*, 247

Handy, R. L., and R. A. Lohnes. *Sodium chloride content and compaction in deep-sea cores: a discussion*, 365

Handy, R. L., and R. A. Lohnes. *Sodium chloride content and compaction in deep-sea cores: a discussion—correction*, 600

Henderson, John R., and Paul M. Clifford. *Miogeoclines (miogeosynclines in space and time): a discussion*, 111

History of Holocene transgression in the Gulf of Panama (Abraham Golik), 497
Hobbs, B. H., and J. L. Talbot. *The analysis of strain in deformed rocks: a reply*, 494
Hobbs, B. E., and J. L. Talbot. *The relationship of metamorphic differentiation to other structural features at three localities*, 581
Hornung, G., and D. C. Gellatly. *Metasomatic nepheline-bearing gneisses from Darkainle Somali Republic*, 678
Hurricane Betsy in the Florida-Bahama area—geologic effects and comparison with Hurricane Donna (R. D. Perkins and Paul Enos), 710

Interchange of chemical components between granitic intrusions and aureole rocks of South Kyushu, Japan (Noboru Ôba), 371
Interpretation of fold geometry from lineation isogonic maps (David Elliott), 171
Iowan glacial drift sheets of Iowa and Illinois (Morris M. Leighton), 259

Jones, J. G. *Pillow lava and pahoehoe*, 485

Kays, M. A. *Zones of alpine tectonism and metamorphism, Klamath Mountains, southwestern Oregon*, 17
Kink bands of non-tectonic origin (Richard A. Gilman), 702
Koster van Groos, A. F., and P. J. Wyllie. *Melting relationships in the system $NaAlSi_3O_8$-NaF-H_2O to 4 kilobars pressure*, 50

Laboratory experiments on the production of grain orientation in shearing sand (N. Hamilton, W. H. Owens, and A. I. Rees), 465
Laminar viscous flowage structures in ash-flow tuffs from Gran Canaria, Canary Islands: a discussion (Donald C. Noble), 721
Late Quaternary geology of the San Felipe area, Baja California, Mexico (Theodore R. Walker and Robert W. Thompson), 479
Leeward reefs of St. Vincent, West Indies (R. D. Adams), 587
Leighton, Morris M. *Iowan glacial drift sheets of Iowa and Illinois*, 259
Lewis, Michael Samuel. *Morphology of the fringing coral reefs along the east coast of Mahé, Seychelles*, 140
Lohnes, R. A., and R. L. Handy. *Slope angles in friable loess*, 247
Lohnes, R. A., and R. L. Handy. *Sodium chloride content and compaction in deep-sea cores: a discussion*, 365
Lohnes, R. A., and R. L. Handy. *Sodium chloride content and compaction in deep-sea cores: a discussion—correction*, 600

McDonald, Barrie C. *Deglaciation and differential postglacial rebound in the Appalachian region of southeastern Quebec*, 664

Maniled feldspars from the granites of Wisconsin (Wilfred A. Elders), 37
Measures of the degree of chemical weathering of rocks (Bryan P. Ruxton), 518
Mechanics of flow differentiation in ultramafic and mafic sills: a discussion (D. Bridgwater), 596
A reply (S. Bhattacharji), 599
Melting of granite with excess water to 30 kilobars pressure (A. L. Boettcher and P. J. Wyllie), 235
Melting relationships in the system $NaAlSi_3O_8$-NaF-H_2O to 4 kilobars pressure (A. F. Koster van Groos and P. J. Wyllie), 50
Mesozoic and Cenozoic physiographic development of the lower Tennessee River: in terms of the dynamic equilibrium concept (Robert C. Milici), 472
Message from a new editor, 1
Metasomatic nepheline-bearing gneisses from Darkainle Somali Republic (D. C. Gellatly and G. Hornung), 678
Milici, Robert C. *Mesozoic and Cenozoic physiographic development of the lower Tennessee River: in terms of the dynamic equilibrium concept*, 472
Miogeoclines (miogeosynclines) in space and time: a discussion (Grant M. Young), 116
A reply (Robert S. Dietz), 119
Miogeoclines (miogeosynclines in space and time): a discussion (Paul M. Clifford and John R. Henderson), 111
A reply (Robert S. Dietz and Walter P. Sproll), 113
Mio-Pliocene sediments, gravity slides, and their tectonic significance, east-central Nevada (E. M. Moores), 88
Moores, E. M. *Mio-Pliocene sediments, gravity slides, and their tectonic significance, east-central Nevada*, 88
Morphology of the fringing coral reefs along the east coast of Mahé, Seychelles (Michael Samuel Lewis), 140

Němec, Dušan. *On the mutual orientation of lamellae poles and [0001] axes of quartz in tectonites*, 358
Noble, Donald C. *Laminar viscous flowage structures in ash-flow tuffs from Gran Canaria, Canary Islands: a discussion*, 721

Ôba, Noboru. *Interchange of chemical components between granitic intrusions and aureole rocks of South Kyushu, Japan*, 371
On the mutual orientation of lamellae poles and [0001] axes of quartz in tectonites (Dušan Němec), 358
Origin of crossed-girdle orientations of optic axes in deformed quartzites (A. G. Sylvester and J. M. Christie), 571
Origin and deformation of some "molar-tooth" structures in the Precambrian Belt–Purcell Supergroup (A. Gilbert Smith), 426
Owens, W. H., N. Hamilton, and A. I. Rees. *Laboratory experiments on the production of grain orientation in shearing sand*, 465
Oxidation of the LaBlache Lake titaniferous magnetite deposit, Quebec (A. T. Anderson), 528

Partition of strontium between coexisting K-feldspar and plagioclase in some metamorphic rocks (D. Virgo), 331
Pattern and cause of variability of postglacial uplift and rate of uplift in Arctic Canada (J. T. Andrews), 404

Perkins, R. D., and Paul Enos. *Hurricane Betsy in the Florida-Bahama area—geologic effects and comparison with Hurricane Donna*, 710
Pillow lava and pahoehoe (J. G. Jones), 485
Pitty, A. F. *A simple device for the field measurement of hillslopes*, 717
Piwinskii, A. J. *Experimental studies of igneous rock series, Central Sierra Nevada Batholith, California*, 548
Piwinskii, A. J., and P. J. Wyllie. *Experimental studies of igneous rock series: a zoned pluton in the Wallowa Batholith, Oregon*, 205
Potter, Paul Edwin, and Robert F. Blakely. *Random processes and lithologic transitions*, 154
Production of preferred orientation in a concentrated dispersion of elongated and flattened grains (A. I. Rees), 457
Ptygma-like veins in graywacke, mudstone, and low-grade schist from New Zealand (David Shelley), 692

Quantitative paleoecologic analysis of fossil communities in the Richmond Group (William T. Fox), 613

Random processes and lithologic transitions (Paul Edwin Potter and Robert F. Blakely), 154
Recent history of Gulkana and College Glaciers, central Alaska Range, Alaska (Richard D. Reger), 2
Rees, A. I. *The production of preferred orientation in a concentrated dispersion of elongated and flattened grains*, 457
Rees, A. I., N. Hamilton, and W. H. Owens. *Laboratory experiments on the production of grain orientation in shearing sand*, 465
Reger, Richard D. *Recent history of Gulkana and College Glaciers, central Alaska Range, Alaska*, 2
Relationship of metamorphic differentiation to other structural features at three localities (J. L. Talbot and B. E. Hobbs), 581
Reviews, 122, 245, 369, 495, 601
Rubidium-strontium age of the Mount Bohemia intrusion in Michigan (Sambhudas Chaudhuri and Gunter Faure), 488
Ruxton, Bryan P. *Measures of the degree of chemical weathering of rocks*, 518

Scale of shore erosion (Maurice L. Schwartz), 508
Schwartz, Maurice L. *The scale of shore erosion*, 508
Selley, Richard C. *A classification of paleocurrent models*, 99
Shelley, David. *Ptygma-like veins in graywacke, mudstone, and low-grade schist from New Zealand*, 692
Simple device for the field measurement of hillslopes (A. F. Pitty), 717
Skull morphology and estivation burrows of the Permian lungfish, Gnathorhiza serrata (Keith J. Carlson), 641
Slope angles in friable loess (R. A. Lohnes and R. L. Handy), 247
Smith, A. Gilbert. *The origin and deformation of some "molar-tooth" structures in the Precambrian Belt–Purcell Supergroup*, 426
Sodium chloride content and compaction in deep-sea cores: a discussion (R. L. Handy and R. A. Lohnes), 365
Sodium chloride content and compaction in deep-sea cores: a discussion—correction (R. L. Handy and R. A. Lohnes), 600
Some Australian oxygen isotope temperatures and a theory for a 30-million-year world-temperature cycle (F. H. Dorman), 297
Sproll, Walter P., and Robert S. Dietz. *Miogeoclines (miogeosynclines in space and time): a reply*, 113
Swift, Donald J. P. *Coastal erosion and transgressive stratigraphy*, 444
Sylvester, A. G., and J. M. Christie. *The origin of crossed-girdle orientations of optic axes in deformed quartzites*, 571

Talbot, J. L., and B. H. Hobbs. *The analysis of strain in deformed rocks: a reply*, 494
Talbot, J. L., and B. E. Hobbs. *The relationship of metamorphic differentiation to other structural features at three localities*, 581
Tectonic erosion in the Roberts Mountains, Nevada (Edward L. Winterer), 347
Thompson, Robert W., and Theodore R. Walker. *Late Quaternary geology of the San Felipe area, Baja California, Mexico*, 479
Trend surface analysis of sand tracer distributions on a carbonate beach, Bimini, B.W.I. (John D. Boon III), 71

Virgo, D. *Partition of strontium between coexisting K-feldspar and plagioclase in some metamorphic rocks*, 331

Walker, Theodore R., and Robert W. Thompson. *Late Quaternary geology of the San Felipe area, Baja California, Mexico*, 479
Winterer, Edward L. *Tectonic erosion in the Roberts Mountains, Nevada*, 347
Woodard, H. H. *Contact alteration in the north wall of the Cape Neddick Gabbro, Maine*, 191
Wyllie, P. J., and A. L. Boettcher. *Calcite-aragonite transition measured in the system CaO-CO_2-H_2O*, 314
Wyllie, P. J., and A. L. Boettcher. *Melting of granite with excess water to 30 kilobars pressure*, 235
Wyllie, P. J., and A. F. Koster van Groos. *Melting relationships in the system $NaAlSi_3O_8$-NaF-H_2O to 4 kilobars pressure*, 50
Wyllie, P. J., and A. J. Piwinskii. *Experimental studies of igneous rock series: a zoned pluton in the Wallowa Batholith, Oregon*, 205

Young, Grant M. *Miogeoclines (miogeosynclines) in space and time: a discussion*, 116

Zones of alpine tectonism and metamorphism, Klamath Mountains, southwestern Oregon (M. A. Kays), 17

CONTENTS OF VOLUME 76

NUMBER 1

Message from a New Editor 1

Recent History of Gulkana and College Glaciers, Central Alaska Range, Alaska. Richard D. Reger 2

Zones of Alpine Tectonism and Metamorphism, Klamath Mountains, Southwestern Oregon. M. A. Kays 17

Mantled Feldspars from the Granites of Wisconsin. Wilfred A. Elders 37

Melting Relationships in the System $NaAlSi_3O_8$-NaF-H_2O to 4 Kilobars Pressure. A. F. Koster van Groos and P. J. Wyllie 50

Trend Surface Analysis of Sand Tracer Distributions on a Carbonate Beach, Bimini, B.W.I. John D. Boon III 71

Mio-Pliocene Sediments, Gravity Slides, and Their Tectonic Significance, East-Central Nevada. E. M. Moores 88

A Classification of Paleocurrent Models. Richard C. Selley 99

Discussion and Reply

Miogeoclines (Miogeosynclines in Space and Time): A Discussion. Paul M. Clifford and John R. Henderson 111

Miogeoclines (Miogeosynclines in Space and Time): A Reply. Robert S. Dietz and Walter P. Sproll 113

Miogeoclines (Miogeosynclines) in Space and Time: A Discussion. Grant M. Young . . 116

Miogeoclines (Miogeosynclines) in Space and Time: A Reply. Robert S. Dietz 119

Reviews 122

NUMBER 2

The Gosses Bluff Cryptoexplosion Structure. P. J. Cook 123

The Morphology of the Fringing Coral Reefs along the East Coast of Mahé, Seychelles. Michael Samuel Lewis 140

Random Processes and Lithologic Transitions. Paul Edwin Potter and Robert F. Blakely . . 154

Interpretation of Fold Geometry from Lineation Isogonic Maps. David Elliott 171

Contact Alteration in the North Wall of the Cape Neddick Gabbro, Maine. H. H. Woodard 191

Experimental Studies of Igneous Rock Series: A Zoned Pluton in the Wallowa Batholith, Oregon. A. J. Piwinskii and P. J. Wyllie 205

Geological Notes

Melting of Granite with Excess Water to 30 Kilobars Pressure. A. L. Boettcher and P. J. Wyllie 235

Reviews 245

NUMBER 3

Slope Angles in Friable Loess. R. A. Lohnes and R. L. Handy 247

The Iowan Glacial Drift Sheets of Iowa and Illinois. Morris M. Leighton 259

Derivation of Pleistocene Marine Chronology from Morphometry of Erosion Profiles. N. C. Flemming 280

Some Australian Oxygen Isotope Temperatures and a Theory for a 30-Million-Year World-Temperature Cycle. F. H. Dorman 297

The Calcite-Aragonite Transition Measured in the System CaO-CO_2-H_2O. A. L. Boettcher and P. J. Wyllie 314

Partition of Strontium between Coexisting K-Feldspar and Plagioclase in Some Metamorphic Rocks. D. Virgo 331

Tectonic Erosion in the Roberts Mountains, Nevada. Edward L. Winterer 347

Geological Notes

On the Mutual Orientation of Lamellae Poles and [0001] Axes of Quartz in Tectonites. Dušan Němec 358

Discussion

Sodium Chloride Content and Compaction in Deep-Sea Cores: A Discussion. R. L. Handy and R. A. Lohnes 365

Reviews 369

NUMBER 4

Interchange of Chemical Components between Granitic Intrusions and Aureole Rocks of South Kyushu, Japan. Noboru Ôba 371

Empirical Correction Factors for the Electron Microanalysis of Silicates and Oxides. A. E. Bence and A. L. Albee 382

Pattern and Cause of Variability of Postglacial Uplift and Rate of Uplift in Arctic Canada. J. T. Andrews 404

The Origin and Deformation of Some "Molar-Tooth" Structures in the Precambrian Belt–Purcell Supergroup. A. Gilbert Smith 426

Coastal Erosion and Transgressive Stratigraphy. Donald J. P. Swift 444

Geological Notes

The Production of Preferred Orientation in a Concentrated Dispersion of Elongated and Flattened Grains. A. I. Rees 457

Laboratory Experiments on the Production of Grain Orientation in Shearing Sand. N. Hamilton, W. H. Owens, and A. I. Rees 465

Mesozoic and Cenozoic Physiographic Development of the Lower Tennessee River: In Terms of the Dynamic Equilibrium Concept. Robert C. Milici 472

Late Quaternary Geology of the San Felipe Area, Baja California, Mexico. Theodore R. Walker and Robert W. Thompson 479

Pillow Lava and Pahoehoe. J. G. Jones 485

Rubidium-Strontium Age of the Mount Bohemia Intrusion in Michigan. Sambhudas Chaudhuri and Gunter Faure 488

Discussion

The Analysis of Strain in Deformed Rocks: A Discussion. William M. Chapple 491

The Analysis of Strain in Deformed Rocks: A Reply. B. H. Hobbs and J. L. Talbot . . . 494

Reviews 495

NUMBER 5

History of Holocene Transgression in the Gulf of Panama. Abraham Golik 497

The Scale of Shore Erosion. Maurice L. Schwartz 508

Measures of the Degree of Chemical Weathering of Rocks. Bryan P. Ruxton 518

Oxidation of the Lablache Lake Titaniferous Magnetite Deposit, Quebec. A. T. Anderson . 528

Experimental Studies of Igneous Rock Series, Central Sierra Nevada Batholith, California. A. J. Piwinskii 548

The Origin of Crossed-Girdle Orientations of Optic Axes in Deformed Quartzites. A. G. Sylvester and J. M. Christie 571

Geological Notes

The Relationship of Metamorphic Differentiation to Other Structural Features at Three Localities. J. L. Talbot and B. E. Hobbs 581

The Leeward Reefs of St. Vincent, West Indies. R. D. Adams 587

Discussion and Reply

Mechanics of Flow Differentiation in Ultramafic and Mafic Sills: A Discussion. D. Bridgwater 596

Mechanics of Flow Differentiation in Ultramafic and Mafic Sills: A Reply. S. Bhattacharji 599

Erratum

Sodium Chloride Content and Compaction in Deep-Sea Cores: A Discussion. R. L. Handy and R. A. Lohnes 600

Reviews 601

NUMBER 6

Quantitative Paleoecologic Analysis of Fossil Communities in the Richmond Group. William T. Fox 613

The Skull Morphology and Estivation Burrows of the Permian Lungfish, Gnathorhiza serrata. Keith J. Carlson 641

Deglaciation and Differential Postglacial Rebound in the Appalachian Region of Southeastern Quebec. Barrie C. McDonald 664

Metasomatic Nepheline-bearing Gneisses from Darkainle Somali Republic. D. C. Gellatly and G. Hornung 678

Ptygma-like Veins in Graywacke, Mudstone, and Low-Grade Schist from New Zealand. David Shelley 692

Geological Notes
